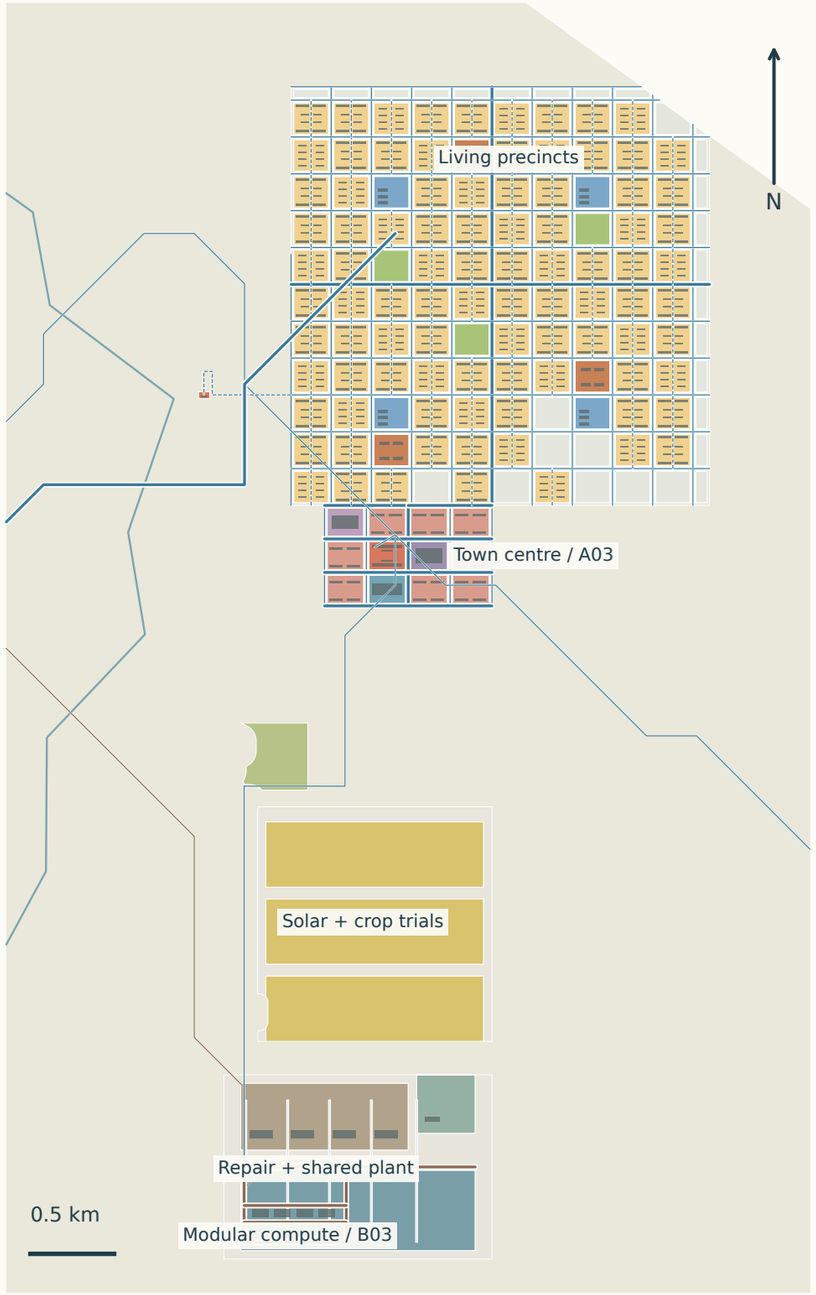
Living, public life and production use different ground

Canonical V12 geometry / street hierarchy, actual footprints and protected pilot context



- Living precincts
- Public commons
- Education / daily services
- Solar + crop trial areas
- Compute halls
- Repair / productive uses
- Passenger / shared movement
- Machine servicing
- Source seasonal channels

The productive estate remains separate.
Shared plant serves compact modular halls.
The shuttle follows the solar edge.

This is a local enlargement;
the red footprint on the full-site plan
locates it within the entire territory.
